Kelas : TI 20 PA

## # Tugas 4 Pemrograman Web Lanjut

The screenshot displays a web application interface for user management. The browser address bar shows the URL `localhost:3000/master-data/users`. The application header includes the logo of Institut Bisnis & Informatika Kesatuan and navigation links: Home, Explore, Messages, Master Data, and Log Out.

The main content area is divided into two sections: **Products** (with a link to [Master data control Products](#)) and **Users** (with a link to [Master data control Users](#)).

The **Users** section contains a table with the following data:

No	Fullname	NPM	Program	Program Study	Action
1	Danilla Putri	202310015	S1	Teknologi Informasi	<a href="#">Detail</a>

Below the table, it indicates "1 data of user".

To the right of the table is the **Input New User** form, which includes input fields for NPM, Firstname, Middlename, and Lastname.

A modal window titled **Detail User** is open, displaying the details of the selected user:

- Fullname : Danilla Putri
- NPM : 202310015
- Email : danilla@gmail.com
- Birthdate : 2000-04-06
- Program : S1
- Program Study : Teknologi Informasi

The modal window has a **Close** button at the bottom right.
